

Personal Information

Name: Kevin Patyk

Date of Birth: August 4, 1993

Phone Number: +310627182091

Address: Van Heuven Goedhartplein 697 3527
DZ Utrecht

Email: kvn.ptk@gmail.com

Languages: English (Native Speaker) & Polish (Fluent)

GitHub: <https://github.com/Kevin-Patyk>

Website: <https://kevinpatyk.netlify.app/>

Education

**Methodology and Statistics for the
Behavioral, Biomedical and Social Sciences**

MSc

Utrecht University
2022

Bachelor of Arts in Psychology

Texas State University
2017

Professional Experience

Researcher (2021-2022)

Institution: ASReview, *Utrecht University*

Supervisors: Ayoub Bagheri, PhD & Rens van de Schoot, PhD

Responsibilities:

- Using Python to apply & evaluate various text summarization algorithms (T5, BART, PEGASUS, BigBird-PEGASUS) on scientific articles using ROUGE metrics
- Using R to for web scraping and for automating the download of thousands of PDF articles
- Using GROBID to parse PDF articles into XML format
- Text cleaning & preprocessing using Python & R

Data Scientist (2019-2020)

Institution: Data Science Initiative, *Texas State University*

Supervisor: Alessandro De Nadai, PhD

Responsibilities:

- Using R & Mplus to analyze data & run statistical tests (structural equation models, logistic regression, multiple regression, factor analysis)
- Managing, cleaning, wrangling, recoding, & visualizing mental health data
- Communicating, reporting, & presenting results of analyses
- Training team members on data collection protocols & analysis methods

Statistics Intern (2019)

Institution: Department of Biostatistics, *Boston University*

Responsibilities:

- Using R & SAS to build a predictive multiple regression model
- Cleaning, recoding, wrangling, & visualizing big survey data provided by National Health & Nutrition Examination Survey (NHANES)
- Documenting methods & presenting the results at the conclusion of the project
- Attending educational courses & seminars on statistical methods & data science techniques

Statistician (2019)

Institution: Department of Psychology, *Texas State University*

Supervisor: Yueqin Hu, PhD

Responsibilities:

- Generating data using simulation methods in R
- Using R to build, implement, & deploy autoregressive & time series models
- Assisting with mathematical derivations

Statistician (2018-2019)**Institution:** Department of Psychology, *Texas State University***Supervisor:** Alessandro De Nadai, PhD**Responsibilities:**

- Using R to check logistic regression model assumptions, build multiple logistic regression models, & calculate odds ratios for a pediatric OCD study
- Pooling data & conducting analyses (effect sizes, confidence intervals, mean differences, standardized mean differences) for a large scale meta-analysis on pediatric anxiety
- Calculating quality adjusted life years (QALYs) & incremental cost-effectiveness ratios (ICERs) to examine the costs of pediatric anxiety & depression
- Visualizing data using R & Excel

Research Assistant (2016-2018)**Institution:** Department of Psychology, *Texas State University***Supervisors:** Crystal Oberle, PhD & Kelly Haskard-Zolnieriek, PhD**Responsibilities:**

- Using R to make contingency tables, obtain descriptive statistics & frequencies, & to run analysis of variance (ANOVA) models & hypothesis tests
- Coding, pooling, & quality checking data prior to running statistical analyses
- Coordinating & managing online data collection

Technical Skills

- | | |
